always applying strategic and tactical approaches to ensure the quality of projects we are assigned to.

CONSTRUCTION MANAGEMENT

As construction managers, we are responsible for overseeing a project from beginning to end, providing itemized budgets, obtaining materials, monitoring quality, and keeping schedules.

OWNER'S REPRESENTATIVE

As Owner's representatives, we are the face and spokesperson for the client to the general contractors, subcontractors, inspectors, and engineers of record as we attempt to get the work they want to be done.

DESIGN-BUILD

After being given a list of parameters by the client, we offer both a clear set of engineering plans and their corresponding budgets to ensure customer satisfaction. The design portion of this task falls under the purview of our sister company, Conemco Engineering, Inc., which has completed more than 1,000 projects.
